5. China's fight against coronavirus buys world time, says Mexican expert

Alejandro Macias, Mexico's former national commissioner in charge of fighting the 2009 swine flu pandemic said China's efforts to contain the spread of the novel coronavirus 2019-nCoV has bought crucial time for other countries to get prepared. China has handled the virus outbreak with transparency and allotted the resources needed to prevent its spread.

6. Coronavirus Battle in China: Process and Prospect

Shanghai Institutes for International Studies published a report entitled Coronavirus Battle in China: Process and Prospect. It answers the following questions: Why has the Chinese government taken measures as quarantine of Wuhan? How effective are they? Can the Chinese government and people manage to contain the epidemic? What are the short-, mid- and long-term effects of the epidemic on China's economy? And how can the international community work together to tackle the international public health emergency?
